

DEAR EDUCATORS,

We hope you are all safe and well. This year, in preparation for our summer swimming season, The Hampton Lifeguard Association is asking that you will help spread our message as we lead up to International Water Safety Day on May 15th, and National Beach Safety Week in the week leading up to Memorial Day.

The mission of the Hampton Lifeguard Association is to WATERPROOF LONG ISLAND'S SOUTH FORK and beyond through education and training. In order to promote the safe use and enjoyment of our many water resources in all communities, we provide assistance and participation in water safety programs and lifeguard activities that maintain the well-being of its members and the surrounding communities. In addition, we uphold a high standard of lifeguarding through training and lifeguard competitions for all age group programs.

Below you will find a list of age-appropriate resource links and activities for your students and families.

Pre-K & Kindergarten

- [-The Organ Wise Guys: Water Safety for Children \(Link\)](#)**
- [-Splish! Splash! Water Safety Song \(Link\)](#)**

1st & 2nd Grade
